

MOHAMED UMAR HASHAN

Network Engineer | NOC Engineer | IT Support Engineer

+91 7871038286 | umar2003hashan@gmail.com | Chennai, India | [in linkedin](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Entry-level IT Support Engineer with a B.E. in Computer Science and Engineering and hands-on CCNA training. Knowledge of hardware and software troubleshooting, Windows operating systems, TCP/IP, LAN/WAN, DNS, DHCP, IP addressing, VLANs, routing, switching, and network troubleshooting. Familiar with basic help desk support, user support, remote support concepts, Active Directory, Microsoft 365, and ticketing systems. Strong problem-solving, communication, teamwork, and technical troubleshooting skills.

TECHNICAL SKILLS

IT Support: IT Support, Technical Support, Help Desk Support, User Support, Hardware Troubleshooting, Software Troubleshooting, Windows Support, System Configuration, Peripheral Troubleshooting

Networking: TCP/IP, IPv4/IPv6, LAN/WAN, VLAN, DHCP, DNS, NAT, ACL, Routing, Switching, Subnetting, Network Troubleshooting

Network Devices: Cisco Routers & Switches, Basic Router & Switch Configuration

IT Administration: Basic Active Directory, Microsoft 365, User Account Support, Basic Remote Support, Ticketing Systems

Troubleshooting Tools: Ping, Traceroute/Tracert, ipconfig, nslookup, Cisco Packet Tracer, PuTTY

Security: Basic Network Security, ACL, SSH, Telnet

Software: MS Office, VS Code

EDUCATION

B.E. Computer Science and Engineering

Mohamed Sathak Engineering College, Kilakarai | 2021–2025 | CGPA: 7.8/10

HSC — Allwin School, Ramanathapuram | 2021 | 81%

TRAINING / EXPERIENCE

Network Engineer Training — Networks Home

- Configured and troubleshoot Cisco routers and switches in practical networking labs.
- Configured VLANs, IP addressing, routing, inter-VLAN routing, NAT, and ACLs.
- Performed network connectivity troubleshooting using ping, traceroute, and diagnostic commands.
- Practiced DHCP, DNS, SSH, Telnet, STP, IPv6, and basic network security concepts.
- Practiced troubleshooting common connectivity and configuration issues.
- Simulated enterprise network topologies using Cisco Packet Tracer.
- Maintained basic network documentation and troubleshooting procedures.

PROJECTS

Enterprise Network Configuration — Cisco Packet Tracer

- Designed and configured a multi-device enterprise network using Cisco routers and switches.
- Implemented VLANs, trunking, inter-VLAN routing, DHCP, NAT, ACLs, and static routing.
- Troubleshoot IP connectivity and network communication issues using Cisco IOS commands.

IT Support & Troubleshooting Lab

- Practiced basic hardware, software, operating system, and network troubleshooting scenarios.
- Diagnosed IP configuration, DNS, DHCP, and connectivity issues.
- Practiced basic user support, Windows troubleshooting, and system configuration.
- Used ipconfig, ping, tracert, and nslookup for troubleshooting and diagnosis.
